✔ Turn 2

Rollup bundle, Node run

rollup ReplaceMenuProvider.js

node .cg_node.cjs

10 of 10 probes reached

real bpmn-moddle Tasks,

modeling update stubbed

>_ Probe values

last toggle of each scene

Scene	H3	loop object	H8	isSequential
 → 	none		false	
 →  → 	StandardLoop		false	} ...
 →  → 	StandardLoop		true	
 → 	MultiInstance		true	} ...
 → 	MultiInstance		false	
 Task  Loop  Parallel  Sequential				

Report claims

Turn 3

10 claims, each citing its tool records

1

Reuses the StandardLoop and only writes isSequential

2

Parallel ↔ Sequential passes the same object back

Add a type test to the guard.

Node only, XML not observed.

→ Patch generator
